

# **FIRST YEARS ORIENTATION PROGRAM**

The first year students who joined the University in September 2019 were welcomed to the school of Pharmacy by a host of students and staff members.

The students were addressed by various lecturers from various departments about the whole Pharmacy course and given general advice on how to cope through the school.

The NUPSA patron and the dean were also present to give their counsel to our new students.

Student leaders also participated in giving guidance to the new students and particularly giving them survival tactics, study advice and religious advice to help the first years through their life in campus.

We wish the students a great time in the school of Pharmacy and hope to see them graduating in 5 years' time
